Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6,36-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Palestrant. The claims are directly readable on a surgical tool used in combination with a CT scanner. The tool includes a display 34 which indicates differences between the position of the tool and a desired position (horizontal).

Allowable Subject Matter

Claims 1,7-13,15,22,26,29,31 are allowable over the prior art of record.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shostek et al disclose a device to ensure that the surgical table is level.
